B.Tech, Computer Science and Business Systems

Address : SRM institute of Science and Technology, Kattankulathur, Chennai, Tamil Nadu

Summary

Third-year B.Tech CS And business student with hands-on experience in C/C++, Python, Java, SQL and Front-end Development . Seeking an internship and also a Full-time to apply Software Development and problem solving skills in real-world environments.

Education

SRM IST-Kattankulathur

B.Tech · Computer Science and Business Systems

2027

CGPA - 8.14/10

City Montessori school

Class XII - COUNCIL FOR THE INDIAN SCHOOL CERTIFICATE EXAMINATIONS ·
Lucknow

2023

Percentage - 87%

City Montessori School

Class X - COUNCIL FOR THE INDIAN SCHOOL CERTIFICATE EXAMINATIONS ·
Lucknow

2021

Percentage - 85.20%

Projects

Financial Intelligence | [Github link](#)

· Python, Flask, SQLAlchemy, bootstrap and SQLite

Full Stack

FinanceFlow is an intelligent personal finance management system that goes beyond expense tracking — combining real-time budget monitoring, spending analytics, forecasting, and AI-driven recommendations. Built on Flask, SQLAlchemy, and Bootstrap 5, it helps users track income and expenses, plan budgets, understand financial habits, and make smarter money decisions through actionable, data-driven insights.

Explainable House Price Prediction using Machine Learning and XGBoost |

Academic Minor Research Project · Python, Pandas, NumPy, Scikit-Learn, XGBoost,
SHAP, Matplotlib, Seaborn, Jupyter Notebook

Machine Learning | Data Science |
Explainable Artificial Intelligence (XAI)

- Developed an **Explainable House Price Prediction System** using Machine Learning techniques.
- Evaluated multiple models including **Random Forest** and **XGBoost**.
- Achieved best performance with **XGBoost ($R^2 = 0.8568$, $MAE \approx \text{₹ } 15,562$)**
- Applied **SHAP (Explainable AI)** to interpret model predictions and feature impact.
- Identified key price drivers such as **property area, ownership type, city, and infrastructure accessibility**.
- Generated professional visualizations including SHAP plots, heatmaps, residual analysis, and prediction comparison graphs.
- Built a transparent and reliable decision-support system for buyers, sellers, investors, and real-estate analysts.

Certifications

Software Engineering – JPMorgan Chase & Co. (Forage)

NPTEL Online Certification in JAVA Language | [\(Google drive link\)](#)
